

RDH-GTK37iP

Portable Party System w/ Bluetooth® & NFC

Transform any gathering into a party scene with massive music volume and multi-color lighting. Connect wirelessly using Bluetooth® with one-touch NFC technology⁴ or plug in your iPhone® & iPod® products³.

Bullets

- 420 Watt sound system w/dual woofers & tweeters
- Bluetooth® audio streaming with NFC One-Touch connect⁴
- Control iPod® and iPhone® devices³ with ease
- Front USB input² for use with MP3 players & flash drives
- Selectable Multicolor LED lighting pulses to the music
- EQ & DJ effect controls let you customize the sound
- AM/FM Radio with 30 station presets
- Rear auxiliary inputs for use with other devices⁵
- Versatile horizontal or vertical orientation
- Built-in handles for portability

Features

Music made massive

This portable, 2-way speaker system uses dual woofers and tweeters driven by 420 watts total RMS power to deliver powerful sound and pounding bass that can fill most any room or backyard event.

Connect Wirelessly³

Enjoy convenient Bluetooth® connectivity with compatible devices and stream audio without wires³. Near Field Communications (NFC) One-touch connect takes Bluetooth® connectivity to the next level by allowing users to simply align their enabled devices and tap them together to pair and activate the connection.

Latest iPod® & iPhone® connectivity³

Power up your playlists, listen to your audio apps and stay connected with the latest iPhone® and iPod® devices³. The integrated cradle provides convenient charging and playback control for devices using the 8-pin Lightning™ connector.

USB connectivity is covered²

The convenient front USB input can be used to connect, control and charge a wide range of audio devices² like previous generations of iPod® and iPhone® products³, Walkman® players, USB thumb drives or other compatible USB devices⁵. Playback audio files stored on your device or directly from audio apps.

Create the mood with lighting

Use any one of the 14 selectable LED and strobe lighting configurations to help set the tone and intensity for your music playback. The multicolor LED's and strobe patterns will pulsate in sync with your music to help create just the right mix between your mood and music.

EQ & DJ effects

With several music enhancement settings, users can dial in the sound by choosing one of the 11 preset EQ settings and increase low-end bass response by engaging the BASS BAZUCA. Be your own DJ using the FLANGER, ISOLATOR sound effects to personalize the tracks.

AM/FM radio

Use the integrated AM/FM tuner to receive local broadcast signals with the included AM/FM antenna plugged into the rear panel. Users can select up to 20 FM and 10 AM preset stations.

Rear aux input

Use the rear panel mounted RCA inputs connections⁵ to playback external audio/video equipment and hear your DVD/PC or gaming console through the audio system.

Versatile placement options

Thanks to the integrated handles, the system can be positioned vertically or horizontally. In horizontal mode, the unit projects accurate left and right stereo imaging. In vertical mode, simply select VERTICAL SOUND and the unit shifts bass response to the lower speaker, enhancing hi-frequency response to the top speakers.

In the box

This unit is ready to rock right out of the box. An AM/FM antenna is included to ensure broadcast signals come in clear and it even comes with a convenient wireless remote with batteries.
